

# MOOREA – INITIATION DIVE

## INCLUDED IN THE PACKAGE

Nothing better than a dive to see up close the beauty of underwater Polynesian fauna and flora . After a briefing with your monitor and fitting of your diving gear, set off by boat to discover anemones & their fish clown, boxfishes, trumpets fish, butterflies fishes, angels fish, parrots fish, etc. If you have your camera the monitor can capture this fantastic moment.

An introduction to diving on our islands is all about the excitement of discovering a new world, the unique sensation of being weightless under water, and being enchanted by abundant aquatic plant and animal life in a variety of colours and shapes.
